

Profit by Intention

Driver Productivity

Reduce Customer Service Costs

Delivery Fleet Efficiency

Improved Customer Service

Proof of Delivery Signatures

Better Dispatch Decisions

Delivery Signature APP

AutoPower's Point of Delivery Signature APP is an easy to use phone or tablet mobile application which is integrated into the AutoPower System. This mobile application works directly with order entry or optionally a dispatch interface which assigns orders that are downloaded to your delivery drivers. Signatures provided at point of delivery are uploaded to the order files for historical reference and proof of parts delivery.

Benefits of Delivery Signature APP

- Efficient assignment of delivery orders
- Optimized delivery routing
- Optimized driver routing
- Seamlessly track delivery orders
- Delivery orders downloaded directly to the driver
- Improved waiting, loading and unloading efficiently

Benefits for Management

- Easy-to-use Android APP connects the truck driver's smart phone with the AutoPower System
- Allows for continuous real-time required delivery downloads
- Provides signature proof of delivery uploaded to order file
- Paperless delivery and transparency from pick-up to delivery
- Compatible with Android based mobile phones and tablets
