RELEASE NOTES

6.7.231103

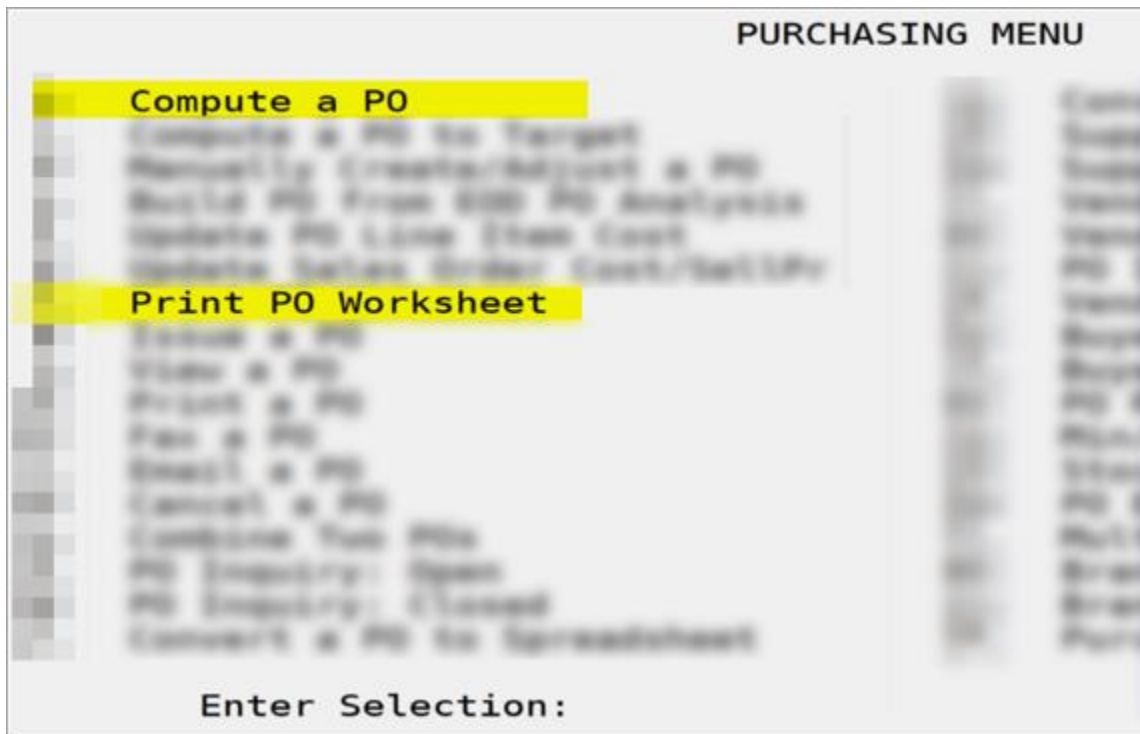

[PRINT PO WORKSHEET](#)

The Print PO Worksheet process has been updated to use our latest document options module.

Summary: The Print PO Worksheet screen was directly prompting the user for print or display - now the screen only prompts for "Continue? (Y,N)", then the user is prompted for the document output options separately.

The Purchase Order (PO) Worksheet can now be viewed in a PDF viewer. This enhancement provides users with the flexibility to choose whether they want to print the worksheet to a specific printer or not, instead of it automatically being sent to a printer.

Please note that these changes will impact the menu options 'Compute PO' and 'Print PO Worksheet' within the Purchasing Menu.

Compute a PO

These screen comparisons illustrate the print option modifications that have been implemented for the 'Compute a PO' screen.

Purchase Order Generation								
With Period Selection, Trend & Lostsales						PO-GEN-TREND		
10-31-2023	Supp#	Method S-F-A	Days Sply	Pct Lost	Sales Periods To Be Analyzed	Periods Used For Trending	Status	Buyer
